Computer Science Tripos 2025

The Faculty Board of Computer Science and Technology give notice that, with effect from the examinations to be held in 2025, the form of the examination for the following papers for the Computer Science Tripos will be changed as follows:

Computer Science Tripos Part IB 2025

Concepts in Programming Languages will not be running in 2025. One Semantic and Programming Languages question will move from Paper 6 to Paper 4. Further Java will not be examined in 2025.

Computer Science Tripos Part II 2025

Part II students should offer two of the following Modules of Assessment:

Advanced Data Science
Affective Artificial Intelligence
Category Theory
Cloud Computing
Computing Education
Computer Systems Modelling
Deep Neural Networks
Digital Signal Processing
Extended Reality
Federated Learning
Machine Visual Perception
Mobile Health
Multicore Semantics and Programming
Natural Language Processing
Practical Research in Human-Centred AI

All other papers remain unchanged. Students are referred to the Faculty website at:
http://www.cl.cam.ac.uk/teaching/exams/ for further details.

Approved by Faculty Board Oct 2024
